Revision History:

Ver No.	Change Description	Prepared By	Approved By	Date
1.	SOP formulation	Support Team Lead		

1. Scope

This SOP outlines the processes and support provided to effectively deliver on client requirements through the Online Tracker. It includes:

- Online tracker processes
- Role clarity within the support team
- Issue reporting
- Support and product-related documentation
- Ready reckoner for building content on knowledge-base
- Weekly reviews and client reporting

2. Objective

The primary objective of this SOP is to systemize processes related to the Online Tracker, reducing errors and inconsistencies, optimizing resources, and increasing team efficiency and effectiveness. It also serves as a guide for new employees, simplifying on boarding and understanding of the processes. The document will be periodically revised to incorporate learnings and improvements.

Members involved	
Reviewer/Principal Expert	
Executor	Manager/Assistant Manager/Intern

3. Roles and Responsibilities

#	Role	Responsibilities
1	**Company Name**	✓ Map issues to respective assignees after initial checks. ✓ Closely track each issue and ensure deadlines are met. ✓ Maintain TAT (Turn Around Time). ✓ Conduct weekly status reviews and report to management and clients. ✓ Collect quarterly feedback and set targets for performance improvements.
2	**Intern / C1 / C2**	✓ Receive and resolve issues from the or directly from the Online Tracker dashboard. ✓ Update the online tracker status, remarks, and other details. ✓ Ensure timely communication with clients for updates and provide responses within defined timelines. ✓ Mark issues as closed once resolved from the client's end.

5. Annexures:

5.1 Annexure1:

Identifying the type of Issue raised on a tracker

1. **Bug:**

Unexpected behaviour or error in the system.

Indicators:

- Functionality not working as intended.
- Error messages or crashes.
- Data inconsistency

2. **Clarification**:

Questions or requests for more information about the system or a specific feature.

Indicators:

- Request for additional documentation.
- Confusion about how a feature works.
- Need for further explanation or guidance.

3. **Security Issue**:

Potential vulnerability or threat to the system's security.

Indicators:

- Reports of unauthorized access or data breaches.

- Vulnerability in code or configurations.
- Concerns about data privacy and protection.

4. **Performance Issue**:

System is slow or unresponsive.

Indicators:

- Reports of slow loading times.
- High resource usage (CPU, memory, etc.).
- Degraded performance under certain conditions or load.

5. **Enhancement:**

Request for new features or improvements to existing features.

Indicators:

- Suggestions for new functionalities.
- Requests to improve user experience.
- Ideas to add new capabilities to the system.

Approval process:

1. Customer reports an enhancement in Online Tracker.
2. CA Team member verifies the requirement.

3. If agreed to be delivered as part of project/AMC and is clearly mentioned in contract/SOW, example requirement which are regulatory, security or performance in nature:

    3.1 Seek approval from the PM or Head.
    3.2 If approved by PM or Head:
        3.2.1 Prepare a CR form and get the agreed solution confirmed with the client.
        3.2.2 Send email to PM/Head and get approval via email.
        3.2.3 Attach the email approval of the PM or Head in Online Tracker.
        3.2.4 Change the tracker to Change Request (CR).
        3.2.5 Plan the delivery of the requirement and communicate to the client.

6. Change Request:

Requests for modifications to existing functionalities or workflows.

Indicators

- Changes to business processes or requirements.
- Modifications to existing features.
- Requests to alter configurations or settings.

Approval process

6.1 Get an agreement with the customer that it will be taken up as a CR.
6.2 Send CR form with costing for approval from the customer side if costing applicable.
6.3 If the customer agrees:
    6.3.1 Send the costing to the customer.
    6.3.2 Once approved, the customer can send the PO or signed SOW as notice to proceed further.
    6.3.3 Change the tracker to Change Request (CR). Attach the notice to proceed or approval to the ticket.
    6.3.4 Plan the delivery of the requirement and communicate to the client.

5.2 Annexure 2

Checklist:

5.2.1 Project: Deployment & Installation Requirements – Document links where ever to be provided
5.2.2 Debugging issues - Document links where ever to be provided

5.3 Annexure 3:

RCA Format:

After resolution by the CA team, the issue should be delivered with an RCA. Every issue needs to be addressed with the below details:

- Issue
- Cause
- Analysis/Findings
- Resolution

If the issue is resolved from the Bank's side, the CA team should still insist on the RCA for closure of the issue.

Wherever necessary, and if the RCA is requested by the bank, the RCA should be shared as a document in the enclosed format with the client. The same has to be attached to the issue while delivering.

1. Issue tracker no
2.

RCA Format - Ex 1.docx

5.5 Annexure 5:

The minutes of the meeting (MOM) should be added to the online tracker under the bank's project in DMS. Create a folder named "MOM" or use an existing folder and save the MOMs with dates. Please check the link and format below.

Case1: Format for weekly first weekly review

Date	
Agenda	Ex - Review meeting
Bank name - Attendees	
Company Attendees	

No	Agenda	Action Point
Issues	Raised	Online tracker no- Discussion during the meeting Support team Bank name Team
	Solved	Online tracker no - Discussion during the meeting Support team Bank name Team
	Pending	Online tracker no - Discussion during the meeting Support team Bank name Team
Others		Discussion during the meeting

		CA team Bank name Team

Case 2: Follow-up meeting

Date	
Agenda	Ex - Review meeting
Bank name - Attendees	
Company Attendees	

No	Agenda	Action Point on the last date	Review of the Current date
Issues	Request for observation /CA	Online tracker no	Mention the online tracker no and request for closure or observations raised- Discussion during the meeting CA team Bank name Team
		Online tracker no	
Others			Mention the online tracker no and request for closure or observations raised- Discussion during the meeting CA team Bank name Team
